

# DENTAL TECHNIQUES USED IN CLOCK CASE REPAIR

PRESENTATION AND WORKSHOP

SATURDAY, November 1, 2008

10:00 AM - 5:00 PM

Bad things happen to good clocks and try as we might to overlook and accept damage, that missing piece of molding, that crushed corner, that missing lion head just eats at us...

Come, explore a few options in self repair!

## LOCATION

*The Historic Dudley House*  
197 North Ashwood Ave.  
Ventura, CA 93003

<http://www.dudleyhouse.org>

Laurie Conti was one of California's first Registered Dental Assistants and has extensive experience in all aspects of dental assisting, lab procedure and now enjoys a supervisory position in two successful dental corporations in Glendale, California. Her interest in horology occupies much of her time where she is active in the N A W C C Chapters 75 and 190. She shares her life with her husband, Mike, 5 adult children, 4 grandchildren, 4 dogs, 2 cats, a bird and a chinchilla.

# CREATIVE SOLUTIONS

Not ready to toss that damaged case into the moat? Is that missing cuckoo clock leaf driving you nuts? Did the last earthquake result in a crushed corner? Come, explore a few repair options! Dental techniques lend themselves quite well for clock case repair!

## 9:30 AM

Come early, join us for coffee, cookies and conversation before we begin!

## MORNING SESSION: 10:00 AM

We will begin our day together with slide presentation followed by discussion of materials and techniques which will lead us into wax build up of missing or damaged wood on workshop samples. Participants may bring their own prospective projects for discussion and if time allows, repair.

**LUNCH WILL BEGIN AT 12:30** and will start with a short tour of Dudley House! (no additional cost)

## AFTERNOON SESSION: 1:30 PM

Continuing on, we will make and use impression molds to create the missing woodwork in both the epoxy material and if time allows, plaster. Sanding, shaping and smoothing will prepare us to color our repairs, matching them to the existing wood.

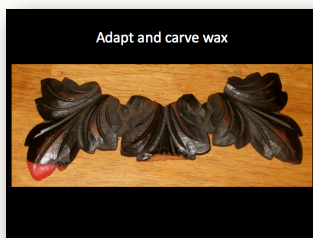

Our last step will be matching the finish on the repair.

*Explore waxing and impressions*

*Recreate missing or damaged woodwork*

*Step by step instruction*

*Including coloring to match*

*Before*

*After*

DETACH & MAIL TO:

LAURIE CONTI  
4950 BOWIE COURT
